Good morning Carol and Michelle,

If you have a chance please contact Mr. and Mrs. Lopez. They lead several efforts that support the unincorporated areas (colonias) in Nueces County. They may even be able to give you a tour to see the conditions of those areas first hand. Most of those communities rely on well water, bottled water and use septic tanks. I spoke to Ms. Lopez this morning and told them that you may be calling. Feel free to contact me directly if you have any questions.

They speak English – but a large number of the people living in the unincorporated areas may not. They can help with the water well testing kits.
